Eric,
 Thanks. I would like to be certain that your set is dated 1868 and would appreciate your checking on this.
 I am looking forward to a visit to your museum in a few months. I am planning to be in St. Louis for the 2007 EAC convention
 Best,
 Mark

Dear Mark:

As to your inquiry concerning our aluminum US proof set it will be on exhibit at our museum which opens October 25, 2006. It is under the Preparation of Money section. The coins are in their double glass sided mounting in the original case. I think there are two dates in which the sets were issued. and I forgot the date of ours. I will check the date for you if that is important. I think our set came through my deceased friend Raymond Williamson of Virginia decades ago and I believe he told me that it came from a family of a lady who was a friend of his. There was no connection I know of to Garrett

I hope this is helpful.

My best to you.

Eric

Dear Mark:
 Our aluminum US Mint set is dated 1868. It still shines. Eric

Hello Eric,

I hope this email finds all well with you.

I am currently researching an 1868 Aluminum proof set that we will be offering in our 2007 FUN auction. This is a cased set with the original case accompanying the lot (the coins have now been slabbed, of course).

It is my understanding that you may own a similar cased set. Is there any background or pedigree information that you can share regarding your set? Please let me know if this information is confidential, or if it can be shared in our catalog. I believe, although I am not certain, that the set we are offering is from the Garrett Collection.

Looking forward to your reply.

Best regards,
 Mark Borckardt
